

# Master in Global Supply Chain Management

In a globalized world, supply chain positions are rapidly gaining importance in multinational companies and organizations.

**This Master will prepare you for the many opportunities in the fast-growing profession of commercial Supply Chain Management.**

- Learn how to manage the resources and relationship of a company, its suppliers and its customers from production to delivery worldwide.
- Learn about key issues in management areas, with a specific focus on supply chains and the global context in which companies operate.
- Open up your career towards an area as wide and varied as the companies and industries that require the effective management of transportation and inventory management, supply chain management and information flow.

## Career Prospects

Graduates from this program start working in a variety of companies and industries:

Atlas Copco Airpower, AVL Schrik GmbH, Baker Tilly, 4flow, Betafence, Caterpillar Inc., Chevron Phillips Chemical Company, Estée Lauder, Glaxosmithkline, HPWC, PwC, Toyota Motor Europe, AB Inbev, and Securitas Group.

*“Aside from learning the theory of Supply Chain Management, students are immersed in a practice-oriented, multicultural environment in the heart of Antwerp, an influential hub of international logistics. Our students not only develop their knowledge and skills, but also a personality that will appeal to a wide variety of companies across the globe.”* — Prof. Dr. Tom Van Woensel
