

LOCAL DEVELOPMENT AND GLOBAL DYNAMICS

International Doctoral School

The International Doctoral Programme in Local Development and Global Dynamics coordinated by the University of Trento with the cooperation of the Corvinus University of **Budapest**, the University of **Bologna**, the University of **Deusto**, the University of **Freiburg**, the University of **Ljubljana**, the University of **Regensburg**, the University of **North Carolina**, the **Higher School of Economics of Moscow**, the **Zhejiang** University, the **EURICSE**, the **SDIC**, the **OECD**, the **IAB**, the **Basque Institute of Competitiveness Orkestra**, **MRI**, the **Manchester Institute of Innovation Research**, the **EURAC**, the **Economic Development Policies Unit** of the Emilia Romagna Region, the **Mach Foundation**, the **International Institute for Development Cooperation** and **GARAPEN**

focuses on

new characteristics of local development in the approach of the openness and integration of societies and on the processes through which the new emerging global knowledge has to be re-contextualized and combined with local specificities. It aims at providing specialized research skills based on an interdisciplinary and comparative context.

The **180 ECTS/ 3 year** program provides an integration of didactic, specialization and research sections.

After the completion of the first year, students will specialize in one of the following three majors:

- 1) **INNOVATION AND LOCAL DEVELOPMENT**
- 2) **HUMAN AND SOCIAL RESOURCES IN LOCAL DEVELOPMENT**
- 3) **COOPERATIVES, SOCIAL ENTERPRISES AND LOCAL DEVELOPMENT**
